

KUARIO Global Printer Driver MacOS

v 3.0.3

Overview

KUARIO Global Printer Driver is a comprehensive application that combines driver functionality with an intuitive user interface to manage your printing tasks efficiently.

This guide explains how to download, install, and use the KUARIO Global Printer Driver available as a DMG file.

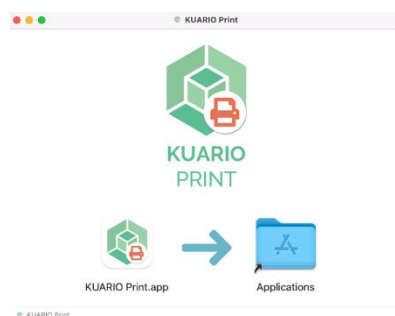

Installation

Step 1: Download the KUARIO Global Printer Driver

1. Go to the KUARIO download website:
 - <https://kuario.com/download-kuario-setup-files>
2. Download the '**KUARIO Global Printer Driver - For Mac**'.
 - If you are using Apple Silicon, you can download the '**KUARIO Global Printer Driver - For Apple Silicon Mac**'.
 - You can also download the latest version using these links.
 - [KUARIO Global Printer Driver - For Mac \(x64\)](#)
 - [KUARIO Global Printer Driver - For Apple Silicon Mac \(ARM\)](#)

Step 2: Install the KUARIO Global Printer Driver

1. Open the DMG File.
 - Navigate to the location of the downloaded file.
 - Double-click the .dmg file to open it.
2. Install the application
 - Drag & Drop the "**KUARIO Print.app**" in the 'Applications' folder.

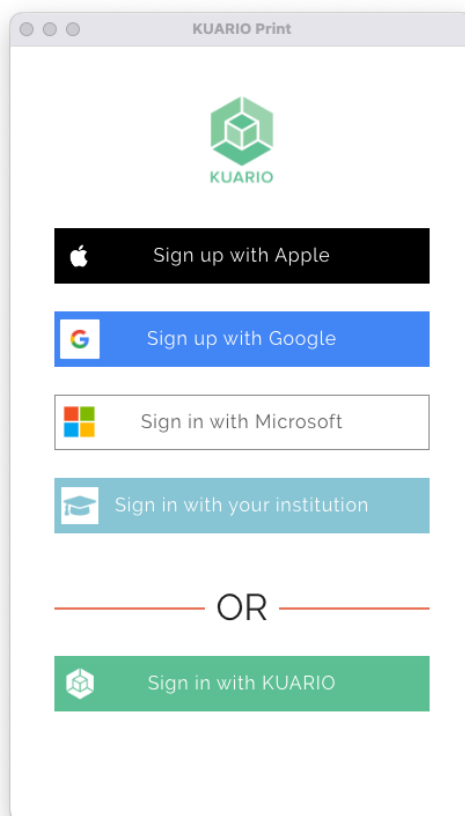

How to Use the Application

The application not only acts as a printer driver but also provides a seamless interface for managing your print jobs. Follow these steps to get started and make the most of the app's features:

Step 1: Starting the Application

- Launch the application from your Applications folder or Dock.
 - The application will start automatically the next time you start your computer.
- On the initial screen, log in using your KUARIO account credentials.
 - Your login will be remembered, so you will not need to enter it again. You can logout your account using the menu.
 - After a successful login, the application will automatically install a new macOS printer named KUARIO-Print.

Step 2: Printing a Document

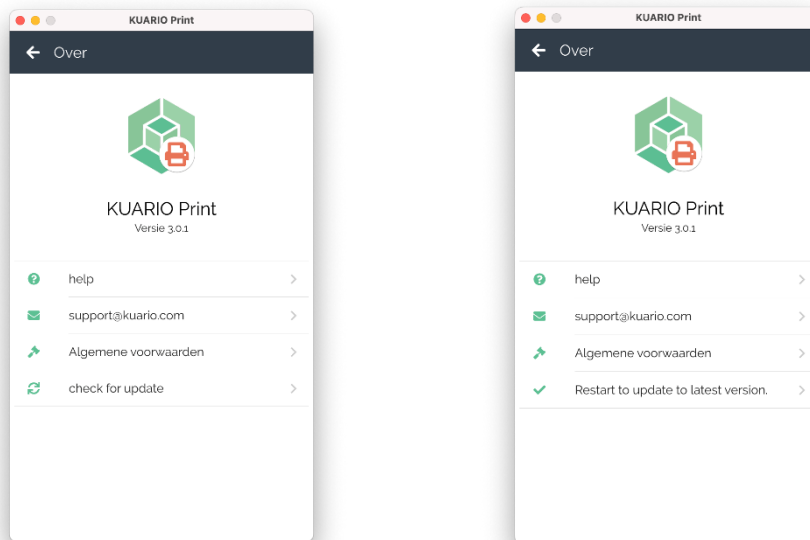

- To send a document to KUARIO:
 1. Open the document or file you want to print.
 2. Select File > Print or use the shortcut Command + P.
 3. In the printer dropdown, select KUARIO-Print and click Print.

The document will be uploaded to your KUARIO account and appear in the application. You can also upload documents through the application.

How to update your KUARIO Global printer driver

The KUARIO Global Print driver may be update from time to time to bring you more and easier print functions. You can check if there is a new version for you:

1. Open the KUARIO Global printer driver;
2. Click on "**About**"
3. Select "**Check for updates**" and "**Downloading**";
4. Restart the KUARIO Global Printer Driver.
